13. [REDACTED] LIAISON In follow-up of my conversation with Tim Ingram, Staff Director, House Government Operations Subcommittee on Government Information and Individual Rights, a call was made to set up an appointment with Chairwoman Bella Abzug (D., N.Y.) and she asked to speak to me. She said that an appointment would not be necessary since all I would have to do is drop off the [REDACTED] material to her so that she could read it at her convenience and that she would lock it up in her office safe at night when she was through. I referred her to Mr. Colby's letters to her of 15 August and 3 October and said that pursuant to them I would not be authorized to relinquish permanent possession of the material. She was very upset and after a lengthy exchange in which I attempted to explain the situation as I saw it, she said that I should be in her office at 0830 in the morning.

14. [REDACTED] LIAISON Subsequent to my conversation with Chairwoman Bella Abzug (D., N.Y.), Chairman Jack Brooks, House Government Operations Committee, called concerning the [REDACTED] material. (See Memorandum for the Record.)

15. [REDACTED] LIAISON Called Jim Cline, Counsel, House Judiciary Subcommittee on Immigration, Citizenship, & International Law, and informed his secretary that we had prepared some material in response to Cline's request for any information concerning alleged Nazis in Interpol and that I would be by to drop it off.
